I. Welcome messages

1. Message from EUSA President

Dear Friends,

I am happy to greet you at the 1st European Universities Water Polo Championship in Koper, Slovenia!

On behalf of the whole EUSA community, I would like to express my gratitude for inviting European student-athletes here. It's a wonderful occasion to be together and experience the beauty of sport. I am pleased to see so many sport lovers, who share values of fair play, equal opportunities and education, promoted by EUSA.

European Universities Championships 2019 organized in 22 sports make it possible for student-athletes to get to know each other and challenge their skills in a friendly atmosphere. During such events we do more than just sport – we broaden our horizons, get to know other cultures, we promote healthy mind in a healthy body.

Being an organizer of such an event is challenging but rewarding. I know it's a hard task, and I want to express my appreciation to the Organizing Committee and its partners for the great job they have done. And of course, my gratitude to the authorities for their auspices of this event.

I believe that this Championship will bring the participants positive experiences and good results. I am sure that the athletes will compete in a fair play manner, respecting the rules and their opponents and please the spectators with their performance.

I hope you will enjoy your stay, your achievements and your time spent in Koper! Good luck!

Adam Roczek
EUSA President

2. Message from SUSA President

Distinguished friends!

We are extremely honoured and pleased to organize EUSA universities championships in Slovenia, in the lovely city of Koper. Slovenian University Sports Association (SUSA) is one of the most active EUSA member, regularly participating in the EUSA events and organizing championships in Slovenia.

SUSA already welcomed participants in EUSA European Universities Championship in Badminton, Basketball, Beach Volleyball, Futsal, Handball, Golf, Volleyball and in FISU World University Championship in Futsal and Table Tennis.

We are really happy to welcome students from all Europe, and to give them a taste of our culture and tourism, and to guarantee them high level university competition in Beach Volleyball and Water Polo. I am sure Koper, with its coast and Mediterranean climate, will be excellent host of these two EUSA events.

I wish to all participants of the European Universities Championship in Water Polo and Beach Volleyball a pleasant stay in Slovenia and a great time in Koper. All the best!

Mag. Patrik Peroša

President of Slovenian University sports association

3. Message from Mayor of City Municipality of Koper

Dear participants of the EUSA European Championships in Water polo and Beach Volleyball, dear sportsmen and athletes!

It is really a great pleasure to welcome you to our city, a 'city with a sporty heart'. In Koper we simply like sport. We are giving sport a large amount of consideration and investing heavily in it. Sport unites and connects us, enriches our lives and makes us happy.

You athletes with your hard work, you do not achieve top results only for yourselves, but you are inspiring all of us, and above all, you give our youngsters an example of how to live healthy and in a courageous way.

I believe that this year's championships will be a pleasant experience for all of you that will enrich you with many new friendships - among those of you that are practicing together, among those of you who will compete together, and among those of us, who have found our place among the fans.

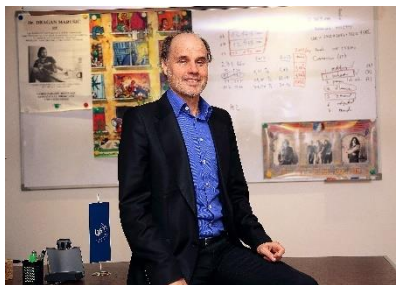

Let me thank all the organizers of the championships, who gave us another wonderful opportunity to follow the top sporting event. I wish you many successes and nice results!

Aleš Bržan
Mayor of City Municipality of Koper

4. Message from rector of the University of Primorska

Dear participants,

It is my pleasure and privilege to address you on behalf of the University of Primorska and welcome you to the European Universities Championship in Water Polo and Beach Volley!

The goal of the University of Primorska is to contribute to the development of a knowledge-society and to pass on the initiatives shaped in the focal point of the Mediterranean and Central European world to the international university world, thus contributing to the sustainable social development of the local and wider regional environment. At the University of Primorska we are well aware that sport is a relevant factor in the quality of student life.

Education is a way to gather knowledge and improve academic skills, whereas from sports students gain the qualities of leadership, sharing, tolerance and team spirit. The healthy

competition and positive spirit help students achieve their goals in their career with ease.

As sport plays an important role at our university, we are extremely honoured that we have the opportunity to host such a significant event here in Koper. I wish you every success in the competition and a very pleasant stay!

Prof. Dragan Marušič PhD
Rector of the University of Primorska

5. Message from president of ŠOUP

Dear students!

I am very pleased to welcome you in Koper again this year, as we will host the first European Universities Water Polo and the Beach Volleyball Championships!

It is extremely inspiring to see so many young students in our largest coastal city and we are especially pleased that there are so many young people who live actively and are engaged in sports.

Sports are more than just competitive physical activities or games, since good results are only possible when discipline and cooperation are present. With sport, people connect to each other and feel the team spirit that makes sports teams united.

I wish to all athletes and all teams to get the best possible results and have lot of success. As we have done it the past, the Student Organization of the University of Primorska (SOUP) together with the University Sport Association of the Primorska region (USAP) intends to support all sports activities of domestic and foreign students also in the future.

We are proud that our work and support of university sport in general has been recognized by the European University Sports Federation (EUSA) and has allowed us to organize two university championships in 2019, and more to follow. I would like to inform all participants that results and success are possible only when strong will and perseverance is present. Good results and success help people to be more motivated and even more successful in their work. Whether it is in sports or in life in general.

To all participants who have come to Koper, I wish you the best experience on the Slovenian coast and a lot of success in both sporting events. Good luck!

Jure Ciglar
Predsident of the Students Organization University of
Primorska

6. Message from President of Sports Association of Uni of Primorska

Dear students, dear participants!

Please let me give you a warm welcome on behalf of the University Sport Association of Primorska (USZP).

I am honoured that USZP has a chance to organize an EUSA European Universities Championship again, this time two championships at the same time. This is a unique organizational challenge which organizational team will handle successfully.

I believe USZP

USZP had already successfully organized numerous international championships, some of them under EUSA flag: European Universities Championship in Basketball (2002, 2015), Beach Volleyball (2005), Futsal (2007) and European Universities Water Polo Cup (2017).

The Organizing Committee of the European Universities Championship in Beach Volleyball and Water Polo together with its partners, as the City Municipality of Koper and the University

of Koper, are doing its best to make a remarkable event and to welcome you under best possible condition in Koper.

Dear friends, I look forward to seeing you all in our beautiful coastal city of Koper!

Situated at a latitude of 45° 32,5' North and at longitude 13° 45,5' East, with characteristic Mediterranean climate partly influenced by the continental

interior. This is Koper with its mild winters and warm and dry summers. Is there anything more pleasant than standing on the seaside, embraced by a soft north-west breeze, admiring the scarlet sky on a day when the scirocco blows or watching the sea in its wild dance of waves stirred by the northern wind?

The climax of the summer in Koper - the Yellow night with the largest and longest lasting fireworks, with the greatest number of events taking place in the open air, a family holiday, a real national festivity. Let yourself go to the rhythm of the summer, enjoy the theater performances taking place within the ancient city walls, and in winter drink a toast to the coming New Year and to all the years to come. Enjoy the local handicrafts, taste the typical local dishes like the jota (a soup with pickled cabbage), the "bobiči" (corn soup), polenta (corn porridge), cod, the fish soup, fish specialities and the typical local wines.

The valley of the castles, with the castle of Socerbo as the first one, extends below the edge of the Karst as a limestone, a fortified border that once separated the territory of the Venetian Republic from

the Austrian region. The path takes us then through Hrastovlje with the ancient frescoes and the world - famous Dance Macabre.

4. Anti-Doping

Doping is not a guarantee of success in sport. In fact, its effect is usually the opposite. A lot of elite sportsmen and sportswomen who did doping got caught. As a result, they lost pride and were banned for at least 2 years from participating in a sport they

loved and lived for. An even bigger problem of doping are the effects on the body.

In elite sports, doping is defined as a violation of one or more anti-doping rules:

1. Presence of a prohibited substance in an athlete's sample
2. Use or attempted use of a prohibited substance or method
3. Refusing to submit sample collection after being notified
4. Failure to file athlete whereabouts information & missed tests
5. Tampering with any part of the doping control process
6. Possession of a prohibited substance or method
7. Trafficking a prohibited substance or method
8. Administering or attempting to administer a prohibited substance or method to an athlete

You can find the list of prohibited substances and methods on the internet. It's updated every year by the World Anti-Doping Agency (WADA) and it's valid for every sport. You should check every substance you are taking. Athletes need to completely avoid steroids, erythropoietin (EPO), stimulants, human growth hormone (HGH), marijuana and narcotics, and pay special attention also to dietary or nutritional supplements.

EUSA is active in Anti-Doping promotion, and has been a partner in the European Anti-Doping Initiative (EADIn), project aimed at establishing an European-wide Anti-Doping mentality in the youth sector by establishing a moral tenor towards concepts such as Fair-play, sensitizing and raising awareness on

all levels of the complex social environment surrounding the doping problematic and implementing strategies to motivate young people to pass on the message and create a strong multiplying effect. Also the International University Sport Federation (FISU) has been actively promoting sports without drugs, also on university sport level.

EUSA is currently not enforcing doping tests at our events. In accordance with the national legislation of the host countries, however, doping controls may be implemented by the National Anti-Doping Agencies. If such doping tests are executed, the WADA rules and regulations are applicable to all athletes. Please remember that testing can be conducted in-competition and out-of-competition. If you are identified in a Registered Testing Pool (RTP), you must provide current and accurate whereabouts information.

What can you do to be an excellent sportsman or sportswoman?

- Practice right and live healthy
- Get more information about consequences of Doping
- Play fair and be a good role model to younger athletes
- Be committed to sport without doping

Doping? No thanks!
